

Shot blaster FBE300

Working width 300 mm

Perfect blast patterns with 6-bladed blastwheel

The drive unit ensures consistent and even feed

FBE300 maintenance and tool box

The FBE300 shot blaster is a professional blasting system for large areas and very hard concrete floors or coatings. It is available as a 11 kW and 15 kW version.

The modular design opens up unique application possibilities. The drive unit enables an even and infinitely adjustable feed. The compact dimensions in relation to the height

of the blaster make this powerful machine easy to manoeuvre. Exclusive 'Travel Mode', prevents damage to dust skirts during transportation, loading and unloading. Maintenance work on the FBE300 can be carried out easily on site without special tools and with little loss of time.
